

Clergy/Faith-Based Outreach Toolkit: COVID-19

Pair the graphics in the zip file at kendrickcompany.com/JerseyKicksCOVID with the following text. Post these pairings on your website, your social media pages and profiles or share them your newsletters.

Message 1:

As we continue to navigate COVID-19, let's work together to minimize the risk of severe disease by taking precautions and getting vaccinated. Learn more about how you can do your part to be sure #JerseyKicksCOVID at <https://covid19.nj.gov/>

Message 2:

It's time to get boosted with the bivalent booster. You can increase your protection from severe disease and complications of COVID-19 with a booster that addresses the latest variants. Find a booster near you at <https://covid19.nj.gov/pages/finder>

Message 3:

Those who are immunocompromised or ineligible for vaccination remain at especially high risk of severe illness from COVID-19. These individuals may stay sick longer or risk being hospitalized or dying from COVID-19 infections. As families and communities, we can all play a part in protecting those at greatest risk by protecting ourselves. If you have not yet gotten the latest COVID-19 vaccination, visit your local pharmacy or find one today at <https://covid19.nj.gov/pages/finder>
